

How U Luv Dat

Amanda Perez

Its friday night
We was good from head to toe
We was lookin so tight
The moment i leave his side
She trys to creeps up from behind
I seen her with my own eyes
Why u tryna lie
Theres plenty of other guys
Why you got to f**k with mine
See hoes like you give n**gas love
After the club its on
And thats whats upGo let her know
Yea i know hes fine
Tryna run up but
Hes already mine
When he looks at you
He laughs in your face
Silly hoe you should know
You can never take my placeGo ahead and flaunt
And Drop it like its hot
No matter what you do
And forget me not
Dont try to be sneaky
And keep it on the low
You should already know
To him your just another hoeShe said what you mean
I came to the bar
To get me a drink
S**t you was on my man
Faster then i could be
What your think ima fool
You think hes gonna leave me
To be with you
You an average chic
Stop wadding him like
He was your s**t
For i cock back my hand
And bust your lip
It will be a one way trip

Its ya last and this is itGo let her know
Yea i know hes fine
Tryna run up but
Hes already mine
When he looks at you
He laughs in your face
Silly hoe you should know
You can never take my placeGo ahead and flaunt
And Drop it like its hot
No matter what you do
And forget me not
Dont try to be sneaky
And keep it on the low
You should already know
To him your just another hoeAll my ladies out there
You know what im talking about
If you got a good man
You better look out
'cause waht u got, is what they want
Tell them hoes they better push on
They on a mission, better listen
To what i say 'cause
These hoes get around everydayGo let her know
Yea i know hes fine
Tryna run up but
Hes already mine
When he looks at you
He laughs in your face
Silly hoe you should know
You can never take my placeGo ahead and flaunt
And Drop it like its hot
No matter what you do
And forget me not
Dont try to be sneaky
And keep it on the low
You should already know
To him your just another hoeGo let her know
Yea i know hes fine
Tryna run up but
Hes already mine
When he looks at you
He laughs in your face
Silly hoe you should know
You can never take my placeGo ahead and flaunt
And Drop it like its hot

No matter what you do
And forget me not
Dont try to be sneaky
And keep it on the low
You should already know
To him your just another hoe
