Get This Right

Scarlet Fade

Verse:
So you think were gonna step down if you try
To beat us down with all your smiles and your lies
We get back up and walk over where we tripped
If youre not gonna listen please just listen to thisChorus:
Peace of mind
When I try
To get this right (2x)Verse:
I lose control when I think Im going to fall
Theres no excuse for wanting to give up at all
And everyday when my eyes behold what I am to see
I pray I need to have you here with meBridge:
Coming at you chaos like a whirlwind
Trying so hard to understand
Im crazy when you look at me so down
Like you think that I cant see
