

Deep Space (feat. James Taylor From J.T. Quartet)

[Mario Biondi](#)

You are my sunlight
My neverending passion
The greatest star of my uni
Tell me you're my sweet babe
But don't change what you are to me
I need you always by my side
stay so close to me, sweetheart
life is nowGonna change my mind
gonna change my words
gonna feel your soul
when I lose control
I wanna take your hands
I wanna take you there
I wanna find a way
Going to deep space
Gonna fly
Gonna fight
gonna flyYour lovin' has me
make me believe in paradise
and all your words are feeling symphonies
your voice is coming, find the stars
you are the sweet of the brighter side
you tell me you're my sweet babe
stay so close to me, my sweet heart
life is nowGonna change my mind
gonna change my words
gonna feel your soul
I wanna lose control
I wanna take your hands
I wanna take you there
I wanna find a way
Going to deep space
Gonna fly
Gonna fight
Gonna flyGonna change my mind
gonna change my words
gonna feel your soul
I wanna lose control
I wanna take your hands

I wanna take you there

I wanna find a way

Going to deep space

Going to deep space

Going to deep space
