What You Wanted

Onerepublic

I'll find the places where you hide
I'll be the dawn on your worst night
The only thing left in your life
Yeah I would kill for you, that's right
If that's what you wanted
If that's what you wanted
If that's what you wanted
If that's what you wanted
I'll put your poison in my veins
They say the best love is insane, yea
I'll light your fire till my last day
I'll let your fields burn around me, around me

If that's what you wanted
If that's what you wanted
If that's what you wanted
If that's what you wanted
I'll run now, cause this time
Oh, my love is true
Tell me, something I wouldn't do.
If that's what you wanted
If that's what you wanted
If that's what you wanted
If that's what you wanted
