

I Know Deep Down

Architecture In Helsinki

Night traffic in my vein
I drove solo baby, before you came to life

I tried
Sleeping by the side of the road
Ooh, hoo

I'm hardly a cave man
Do we hardly belong here
Can you feel your mind expand?
Are you fooling round with me hey, hey

I know deep down
There is no turning back
In the deep down
Our lives are burning

Ooh, I
Ooh, I

Moving faster
Waitin' for somebody to slower
And I'm not talkin'
'bout what's pickin' in reverse
'Cause you know where that is
We're in a distant stare
An out of view despair
So are you foolin' 'round with me, hey
Don't know what it means
Now we're deep down
There is no turning back

In the deep down
Our lives are burning
Ooh, woo, hoo
Ooh, woo, hoo

Once upon a time, did it all it faith
You were looking for somewhere
That let the fire remain
That was the past, [Incomprehensible] was our future
Physical attraction while the moment bends
Doesn't matter how we get there
It was made to end
And it ends, just like it starts, in this town

I know deep
I know deep down
There is no turning back
In the deep down
Our lives are burning
I know deep down
There is no turning back
In the deep down
Our lives are burning
Ooh, woo, hoo
Ooh, woo, hoo
Ooh, woo, hoo
Ooh, woo, hoo
