Hear Me Calling

Moving Breath

I enter your life now make no mistakes
Can you reach me? Can you reach me?
I enter your life now make no mistakes
Can you reach me? Can you touch me?
Can you hear me calling in the night?
My love's so strong I can't get it right
Can you feel my longing through the night?
You've got me totally hypnotized
Ooh, ooh yeah
Ooh, ooh yeah
I came in a black dress but left in a white
Can you reach me? Can you reach me?
I came in a black dress but left in a white
Can you reach me? Can you touch me?
Can you hear me calling in the night?
My love's so strong I can't get it right
Can you feel my longing through the night?
You've got me totally hypnotized
Can you hear me calling in the night?
My love's so strong I can't get it right
Can you feel my longing through the night?
You've got me totally hypnotized

Looking for eyes
The dream is so nice
The rhythm of the song, where you belong
I want is your heart and soul
Ooh, ooh yeah
Ooh, ooh yeah
I'm high on emotion, you're here with me
You can reach me, you can reach me
I'm high on emotion, you're here with me
You can reach me, you can touch me
Can you hear me calling in the night?
My love's so strong I can't get it right
Can you feel my longing through the night?
You've got me totally hypnotized
Hypnotized, I am hypnotized
Hypnotized, I am hypnotized

Hypnotized, I am hypnotized, [Incomprehensible]
I am hypnotized, hypnotized, [Incomprehensible]
I am hypnotized, hypnotized, [Incomprehensible]
Hypnotized, I am hypnotized
