Savage Butchery

Cannibal Corpse

Striking out with rage I pound him, stomp him Cock sucking bastard, don't feel mercy for him

With bare hands, I break his legs, break his neck

Now my jagged blade will bring him to his deathSavage killer, merciless machine

Butchering victims and watching them bleed

Savage killer, chopping off limbs

Butchering for revenge, heartless assassinNow the cutting starts I stab him, slash him

Less than a minute, he became a victim

Now I will sever his legs, his neck

Hatred enemy his body I dissect, savageSavage

Butchery

Ravage

Ruthlessly Veins spray blood, it splashes in my eyes

Impulse of my rage will dictate how he dies

Chopped up while alive or killed with the first strike

What's left of his life is dripping from my knifeSavage killer, merciless machine

Butchering victims and watching him bleed

Savage killer, chopping off limbs

Butchering for revenge, heartless assassinSavage

Butchery

Ravage

RuthlesslySavage

Butchery
