

# The Light I Shine On You

## Kamelot

Yet a day is dawning  
I am sad but also strong  
This gift that I've been given  
Tells me where I do belong  
Falling I'm falling down  
And you recall my strength  
Time will slowly pull me under  
But you will catch my breath This is a praise to all of you  
'Cause the light I shine on you  
Is what you gave to me  
I'm a crystal clear and true  
I'm your cairn and creed You think that I'm a mountain  
But there's a price I have to pay  
For the love I have forsaken  
Can never be replaced Crying I'm crying out  
Be careful with my soul  
Unbounded I'm like water  
But so fragile in the cold  
And this is a praise to all of you 'Cause the light I shine on you  
Is what you gave to me  
I'm a crystal clear and true  
I'm your cairn and creed The mysteries of life  
Take us high and low  
The road can be long  
It seems  
Someone is lost  
But no one is free Alling I'm falling down  
Into your open arms  
Each and every gathered glow  
Maintains my shining star  
This is a praise to all of you
