

In the Wilderness (Live Version)

Mercury Rev

Has she found a way to make her man work out right
Has she found a way to let her man into her lifeHas she found a way to teach her man, some control
 Oh make him understand her, as a wholeWill she find a way to tell him just how lost she is
 An' will he find a way to lead her out of the wildernessTale her by surprise, and not by force
 Oh able to withstand, all her stormsIn the wilderness, things aren't as they seem
 In the wilderness, life is but a dream
 That flows onWill he find a way to let her play such a sacred role
An' will she find a way to forgive him as a wholeOh how can he have been so blind, for so long
 An how can the woman I love, be so strongIn the wilderness, things aren't as they seem
 In the wilderness, life is but a dream
 That flows on
