

Superior Race

Atrocity

They come across the sea from the island of eternity
Dark ships with banners high, the whole world in their sight
They are the Godly race, suppressing every place
Occult powers reign of fear invincible technology
The bloody way on their quest
Day by day they never rest, triumph is eternal
Hail, superior race
Obey superior race now
Man calls them Titans and Nefilim, they take over reign supreme
Until they don't defeat every land, this war will never end
Warlords of golden times, strong men side by side
Spilling blood on the shields, they control the battlefields
The bloody way on their quest
Day by day they never rest, victory essential
Hail, superior race
Obey superior race now
Godlike dominance over other tribes
Inhuman malice in their mystic eyes
In a world of chaos human race is lost
Assumption of power, empires fall to dust
Fall to dust
The bloody way on their quest
Day by day they never rest, triumph is eternal
Hail, superior race
Obey, superior race
The bloody way on their quest
Day by day they never rest, victory essential
Hail, superior race
Obey superior race now
