Naked Birthday (Gothtastic Mix)

Switchblade Symphony

I know it hurts, what you believe:
That everything is just as seemsThe walls are cracked, the road is long
And I can't tell if their will is that strongTo force a change in the light to relieve you of strife
To force a change in the heart as it all comes crashing down
You never will know,You never will feel it,
But where did you go?
You never will see it,You never will see it,
You never will know,
You never will feel it,
I see the fear inside their eyes
But where did you go?As they are falling, who will confide?
And we are waiting for what's coming next
The ropes are broke, there's no net
Will they land on their feet, will they simply give in
To the laws of the land, as it all comes crashing down?
You never will know,You never will see it,
You never will feel it,
But where did you go?You never will see it,
You never will feel it,
You never will know,But where did you go?
Open up your eyes
Open up your eyes
Open up your eyesOpen up your eyes
You know you'll never be found
A servant, so empty, you'll never make a sound
You know you'll always be driftingYou know you'll always be drifting
You know you'll never be found
A servant, so empty, you'll never make a sound, and
You never will see it,
You never will know,But where did you go?
You never will feel it,
You never will see it,You never will know,
You never will feel it,
But where did you go?
