N 2 Da Music

Timbaland & Magoo

[Intro - Timbaland - talking (echo)]Uh, ah, haha uh, ah
C'mon, [harmonizing]
What we got right here
Is that feel good music y'all
Uh, [harmonizing], c'mon
[Break - Brandy - w/ ad libs]When I'm chillin in my neighbor's shade
Watchin the ocean from a balcony
And I love the sound of the waves
And I love it like that, cause to me this is how I get away
[Timbaland]Ha, so what you gonna do girl, what you gonna do
[Chorus - Brandy - w/ ad libs]Outside with my TV on, cell phone on, the radio on
Cause I wanna get into the music
([Timbaland:] I get into the music) (ho)
Outside with my TV on, cell phone on, the radio on
Cause I wanna get into the music
([Timbaland:] I get into the music) (c'mon)
And it feel so good
It's like blood flowin to my veins
([Timbaland:] It's like blood flowin to my veins)
And it feel so good
It's like blood flowing to my veins
[Timbaland]
Alright now, let's take it to the bridge [echo]
[Verse 1 - Timbaland](Ho) It's Timbaland I'm back (uh huh ...)
with another one you can dance, so you can relax (woo, woo ...)
My music moves you wherever you at
I play it loud, to move the crowd, I like it like that (c'mon, c'mon ...)
I know you feel the vibe, from the club to your clothes
and you'll still decide I love it
Everytime I get 'em a ride
I drop the top, turn the volume up and put it in drive
Me and Aaliyah did +One In A Million+
When Ginuwine dropped +Pony+ was the one that I'm feelin
Hey, we havin a party, come through with your crew
Turn up the feel good, do what you do
[Chorus - w/ ad libs][Verse 2 - Magoo]Yeah, when I'm feelin lost and hurt, you can soothe my soul
You was there for me, music
I was goin out of control, 'til I heard Marvin Gaye
"Now it ain't a mountain high enough, when time is rough"

I turn to you, yeah
Believe it or not, I learned from you, yeah
All of my soul, I bear to you
Your not a painkiller, but I think a snare'll do the trick
And I just wanna lose myself in you
I gained all my health and my wealth from you
I started thinkin me and you was just a phase
Now I can't count the days
[Chorus - w/ ad libs]
