Chorus

Oh, listen to the music we are puttin out
ah, and everything is all right
and if don't like the music I will throw ya out
will make ya dance all night
feel the stuff that we are callin out
listen to the call come from above
listen to the words that we are sendin out(sendin out)

put your hands up in da air like dis
but quick, face to face
and embrace ya history
we got the recipe that erase the
cause you'll be repin the south side of our town till the death of ya(sucker)
we paper convey
its safer to say
we crumble up ya crew like they was paper mache
the vapor we spray
make your vagas to delay
power to get props we could take it away
ya never catch me with the no lame girl home
cause the fish voice is deeper than James Earl Jones
And the Beenie Man in the same world zone
fire from the vampire as the game twirls on

Chorus

ah, and everything is all right
and if ya don't like the music I will throw ya out
will make ya dance all night

feel the stuff than we are callin out
listen to the flow come from above
listen to the birds that we are standin out(standin out)

come take a look upon your watch

so we clowns can make the ground shake
our music attracts women thicker than pound cake
you brothers that sound fake you must check the style
we extra!
