

Here On My Own

Bonsai Nation

How many times must I go
To this place I call my home?
It's happened again when my night starts to spin
Never the same when I feel no pain

Here on my own can feel but alone
And when you're not here I feel surreal
I never can find what rots in my mind
As long as you're gone I feel surreal

Sometimes I think that I've gone
And sometimes I know that it's been too long
Whatever these eyes have come across
Discover the lies that I have lost

I said go fade away, where do you go and why can't you stay?
Go fade away, why can't I know?
Don't fall back to grace
Hard to define, like night into day
Go fade away, why can't I know?

How many times can I show you
All the reasons that have come to control?
You're in so many lines, but I can't find the rhyme.
Never the same when I feel no pain

Here on my own can feel but alone
And when you're not here I feel surreal
I never can find what rots in my mind
As long as you're gone I feel surreal

I said go fade away, where do you go and why can't you stay?
Go fade away, why can't I know?
Don't fall back to grace
Hard to define, like night into day
Go fade away, why can't I know?

I said go fade away, where do you go and why can't you stay?
Go fade away, why can't I know?
Don't fall back to grace

Hard to define, like night into day
Go fade away, why can't I know?
