Last Night Again

Uncle Kracker

The days seem so familiar
There's something about the evenings
Even though they change every now and then
Well, I can be myself here
And I can free myself here
I can't believe it's last night again
I see things go down, I hear the talk of the town
Like an echo in my ear
If you should look for me, I'll be right here
I can leave myself here
Or I could use some help here
I can't believe it's last night again
It's a lonesome sound when this bar shuts down
So I guess I'll have one more
Nothin' out there I ain't seen before
I can leave myself here
I could use some help here
I can't believe it's last night again
I can't believe it's last night again
I can't believe it's last night again
