Mysterium Coniunctionis (Hermanubis)

Behemoth

(music by Nergal; lyrics by Krzysztof Azarewicz)sounds ov the night
are born from the stillness
censer scent ov the sun
attracts the memories
dark shades - eyes
moths - green pupils
burning echo ov your words
appears
in the heart ov possibility
in extra-real surroundings
there are my passions:
simplicity ov stars
royal Art
alkhemy ov Soul, Body, Word
and I transport
spell ov self-love I weave
and I scream
in the fumes ov antiquity
divine past
in solar room
filled with midnight hour
and midday power
inevitable, immovable
with names with are Many
with secret meaning:
