Promises

Take That

Standing back I can't believe
How you've led me on
And judgin' by the things you say
There's gotta be somethin' wrong
What you tellin' me that
For when you don't mean it?
What you tellin' me that
For I don't believe it?
Your promises, never been anything you made them seem
So what you gonna promise me this time?
You're tellin' lies so plain to see, you're tryin' to make a fool of me
So what you gonna promise me this time? I wanna know
Seems like, I've been playing your game
And how you think you've won
But when you count up what you've gained
You're the lonely one
What you tellin' me that
For when you don't mean it?
What you tellin' me that
For I don't believe it?
Your promises, never been anything you made them seem
So what you gonna promise me this time?
You're tellin' lies so plain to see, you're tryin' to make a fool of me
So what you gonna promise me this time?
Your promises, never been anything you made them seem
So what you gonna promise me this time?
Tellin' lies so plain to see, you're tryin' to make a fool of me
So what you gonna promise me this time? I'll never know
Promises, promises, promises
What you tellin' me that
For when you don't mean it?
What you tellin' me that
For I don't believe it?
Your promises, never been anything you made them seem
So what you gonna promise me this time?
You're tellin' lies so plain to see, you're tryin' to make a fool of me
So what you gonna promise me this time?
Promises
So what you gonna promise me this time?

Tellin' lies
So what you gonna promise me this time?
Promises, never been anything you made them seem
So what you gonna promise me this time?
Tellin' lies so plain to see, you're tryin' to make a fool of me
So what you gonna promise me this time?
