

Watch Out (Extended Mix)

Alex Gaudino

Expectations and possibilities
Don't need no crystal ball, I trust in probability, yeah
I'm gonna take you home, do what you do to me
Come be my roller-coaster, got you where we're supposed to be
Watch out, I'm digging you, wanna give it a try
And deep down, can you feel it, you know I've arrived
Better hold tight, we're gonna turn it 'round
and around and around and around and around
Excitations are what you're giving me
You've got me head to toe, yeah, when I hold your arm indeed
Why don't you satisfy my curiosity
Come be my Romeo, you've got me where I wanna be, yeah
Watch out, I'm digging you, wanna give it a try
And deep down, can you feel it, you know I've arrived
Better hold tight, we're gonna turn it 'round
and around and around and around and around
Watch out, I'm digging you, wanna give it a try
And deep down, can you feel it, you know I've arrived
Better hold tight, we're gonna turn it 'round
and around and around and around and around
Watch out, I'm digging you, wanna give it a try
And deep down, can you feel it, you know I've arrived
Better hold tight, we're gonna turn it 'round
and around and around and around and around
Watch out, I'm digging you, wanna give it a try
And deep down, can you feel it, you know I've arrived
Better hold tight, we're gonna turn it 'round
and around and around and around and around
