All my time
Oh it's got a price
Oh gonna pay for mineI know you really care
I know you really careAll my friends they got
Old apathy in the brain
They got no ideas in their heads
They got no path that I can seeDon't you think that I don't blame them
Don't you think that I can't shame them
Don't you think that I don't want them
Don't you think that I ain't one of them
One of them, one of themI know you really care
I know you really careYou're just another X
You're just another X
