I Just Know

Kandi

Yes, you are the man that I was born to love
Yes, you are the one that I can't get enough of
You are everything I've been missing
You are, so I won't put up a resistance
People ask me how I know
'Cause I can feel it in my heart
How I feel so strange inside
Whenever we're apart
I just know 'cause I can feel it in my soul
I just know 'cause I've never felt this way before
I just know 'cause I've got this special feeling
I know, I feel it with everything within me
Yes, you are everything that I need
Yes, you are, I feel that you're the other half of me
Yes, you are the air that I breathe
You are the man that makes me so complete
People ask me how I know
'Cause I can feel it in my heart
How I feel so strange inside
Whenever we're apart

I just know 'cause I can feel it in my soul
I just know 'cause I've never felt this way before
I just know 'cause I've got this special feeling
I know, I feel it with everything within me
Don't ever question how I feel
Because I know our love is real
People talk about how our love began
But it's not for them to understand
They ask me how I can I be sure
That you're the one but I'm secure
They ask me how I know it's love
I'm so confident because
I just know 'cause I can feel it in my soul
I just know 'cause I've never felt this way before
I just know 'cause I've got this special feeling, deep inside
I know, I feel it with everything within me
I know, I know, I know
I just know, I just know it

I feel it deep within, I just know it
