

Welcome

Kai Tracid

Listen carefully As I introduce You to a world like no other
A world far beyond your wildest imagination
A place where your dreams come to life
far away from the place where evolution is the key to your survival Relax As you drift deep into your own
thoughts
contemplate the reason you exist
will the value of your triumph's today be worth the same tomorrow Or Will it self destruct and destroy the human
race as you know it, will you control your life Or Will your life control you
now follow me freely
as i lead you to MY OWN REALITY
