Love and Caring

Crystal Castles

To make superior man
Anatomically built
This half corpse can't guiltSay goodbye
To your incest eyes
Blue blood
Say why shattered glass
Makes shattered ribs
Never heard when it's time to guiltUntil the bottom of winter blues
You're my teacup passing by
Doctor dead
And his kids
Oh, how awful it was todayThe sounds of screaming
Save us please
Open wounds
Drowned in KeroseneWhat the fuck is this?
Oh, it's the bassSo, what do you think of me?
Is it a joke
Or a part of me?Yeah,
I'm just saying
May your face
Minimize the human race
This way we can be together
Make threats to switchblade loversOkay baby
It's been so long
Since the cityscape had episodes
