I Don't Know When to Quit

[The Road Hammers](#)

If I drink one, I drink a hundred
Try to have a little fun
Might not come in until the sun comes up
I've got a tendency to get carried away
Girl I'm just made that waySo baby forgive me
If I move closer every time that you kiss me
'Cause I ain't ever had a feeling hit me so strong
Girl I might just keep on, lovin' you as long as I live
I don't know when to quitYour sweet love it's like a habit
Like a real good drug
And I ain't ever gonna get enough
'Cause every day girl it just keeps on getting better
I'm in this thing forever and everSo baby forgive me
If I move closer every time that you kiss me
'Cause I ain't ever had a feeling hit me so strong
Girl I might just keep on, lovin' you as long as I live
I don't know when to quitThere's no end to my love
Won't let you down, I won't give up
This heart will always beat for you
I couldn't stop it if I wanted toSo baby forgive me
If I move closer every time that you kiss me
'Cause I ain't ever had a feeling hit me so strong
Girl I might just keep on, lovin' you as long as I live
I don't know when to quit, I don't know when to quit
