

# How To Be Good

## Minnie Driver

I could write the book of you  
And illustrate the pages, you shouldn't read it  
Oh, I'm the one that you put down  
It was written in a hurry, slipped through your fingersI do everything I should  
I still got to learn how to be good  
You got two strong arms, I see  
Can't you bring em around, wrap em around me?I lay my storms down at your feet  
Maybe you'll build a shelter, maybe do my hard work for me  
Oh, I kick and scream, but the job is mine  
So Ill stay by the ocean, you got your own hills to climbOh, I do everything I should  
I still got to learn, how to be good  
And Ive got two strong arms, you see  
I got to bring em around, wrap em around meAnd I know that I am full of holes  
Still they let me, see on through to the other side  
And the Southern Cross has got you in her sightsIll do everything I should  
But I still got to learn how to be good  
Youve got two strong arms, you see  
Got to bring em around, got to wrap em around meYou got to wrap em around  
Got to wrap em around me  
Yeah, bring em around  
Yeah, wrap em around meIll do everything I should  
I still got to learn how to be good  
How to be good
