

# Smokestacks

## Joywave

Nobody's gonna hit your head  
Nobody's gonna wish you're dead  
Somebody's gonna make it alright

Nobody's gonna knock you down  
Nobody's gonna shush your mouth  
Somebody's gonna turn on the lights

When the shadows creep at night  
There are no monsters here tonight

Nobody's gonna slap your hand  
Cause nobody's any better of a man  
Nobody's really got it right  
Nobody's ever good enough  
Everybody's covering up  
Fumbling around for the lights

When the shadows creep at night  
There are no monsters here tonight

Don't you give up here  
Remember they're just fears  
They live between your ears  
It's only a nightmare [x4]

When the shadows creep at night  
There are no monsters here tonight [x2]

When the shadows creep at night [x3]
