

# Let's Talk About It (Love)

Shamel Shiloh

You know what this is - Another Tony Stone banger â€œ

Letâ€™s talk about it, Letâ€™s talk about it- VA Spiritual Connection- Blood brothers in the faith

letâ€™s go ahead and get into this man

Hallelujah - thank God that I made it over  
The ride was rough - but I pulled it off like a range rover  
No skeletons in my closet man itâ€™s called a testimony  
Tired of the lies and church people acting phony  
Iâ€™m here to break tradition like Jesus on the Sabbath  
Holy Hip Hop get cha jumping like rabbits  
Joint funky cabbage we aint out for the green  
We out for saving so why you gritting on us mean  
Turn that frown to a smile strive for the pearly gate  
Unlock the chains to your brain and your fate  
Beautifully Shine on the grind itâ€™s a-ight if you cry  
God will wipe away your tears when you have â€œem on your side  
Lets be real church - people are dying the sin  
Accept â€œem right now - I donâ€™t care where there been  
Itâ€™s like select amnesia â€œ from king of sinners  
We accepted you â€œ (now) guess who coming to dinner

Letâ€™s talk about it thank God I made it over  
We all are hypocrites without grace of Jehovah

No time for church politics - they need hugs  
been through it all want you try to show â€œem love

Straight out box it amazing how he saved me  
Thuggish type dude with a crew for a family  
Most def I was on the wrong path  
Til I got my act together seeked heavenly match  
Went to the church - with the dreads in hair  
People looking at funny but yo I didnâ€™t care  
I was seeking God but they were steady judging me  
You need to cut your hair pull up your pants and act holy  
Canâ€™t do religion â€œ yo I need a relationship  
Do more the lip service or service with the lips  
My heart is crying out for love and affirmation

Confirmation without any reservations  
So get ready for the new breed, new flock  
Bringing in something different in culture of Hip Hop  
I had to join the saints surely could beat â€˜em  
All we wanna do is praise God in Freedom

Letâ€™s talk about it thank God I made it over  
We all are hypocrites without grace of Jehovah

No time for church politics - they need hugs  
been through it all want you try to show â€˜em love

Go hard like concrete take it to the street  
With Tony Stone on the banger you know it would be heat  
Versatile with our worship donâ€™t put us in a box  
not your typical choir for Jesus we rock  
keep an ear to the street - one eye on my enemy  
Donâ€™t have to watch my back there an angel watching over me  
digital- distributed - mp3â€™s  
Getting love from fam and people around the country  
four star general of sin in past  
ya canâ€™t throw rock with a house made of glass  
No more pitching bricks God has been to good  
time to reach back to all the people the in the hood  
It so amazing how you blessed me all these years  
Iâ€™m not legalistic but I donâ€™t drink beer  
In the midst pain I almost broke  
felt like snapping on the world no joke
