

In the End

The Living End

Well, theres something that I really need to say
Have you ever wondered why the
Truth is hard to say, say
(Say, say)
Why must it be this wayA broken deal and now its time to pay
Trying hard to understand
What happened yesterday, day
(Day, day)
But its the game we playI see the red light signal
Calling me home the red lights are
See the red light and theyre
Calling me homeThe powers above us
Show that you love us
Dont take me away
(Dont take me away)
The powers above us
Show that you love usWell, in the end its just another day
And theres no explanation
Or a plan that you can make, make
(Make, make)
And you cant hide awayWell, you can try and plan
Tomorrows news today
But everything that you want
Is not gonna go your way, way
(Way, way)
The end isnt far awayI see the red light signal
Calling me home the red lights are
See the red light and theyre
Calling me homeThe powers above us
Show that you love us
Dont take me away
(Dont take me away)
The powers above us
Show that you love usWell, in the end its just another day
And theres no explanation
Or a plan that you can make, make
(Make, make)
And you cant hide away, away
(Way, way)

The end isnt far awayThe powers above us
(The powers above us)
Show that you love us
(Show that you love us)
The powers above us
(The powers above us)
Show that you love us
(Show that you love us)The powers above us
Show that you love us
Dont take me away
(Show that you love us)
The powers above us
Show that you love us
Show that you love usIn the end its just another day
And theres no explanation
Or a plan that you can make, make
(Make, make)
And you cant hide away, away
(Way, way)
The end isnt far awayThe powers above us
Show that you love us
(The powers above us)
Dont take me away
(Show that you love us)
(Dont take me away)The powers above us
Show that you love us
(The powers above us)
Dont take me away
(Show that you love us)
(Dont take me away)
