Fadeaway (Instrumental)

Celldweller

I'm not clear how it is that I ended up here
(Let me help you clear your clouded memory, there is no one who knows you better then me)Deja vu
Think of you
Now so far
Once so nearTangled in my own reflection
On the way down
FadeawayWith my hands on my mind I hold wounds that won't mend (You are just trying to be something that you're not, you'll never shake me, never break me,and never take me)
With my eyes opened wide I can see it's the endTangled in my imperfections
On the way down
Fade awayDon't hate me now
They've torn away the ground from under me
Right after they were reassured that I believed
Normality is not a word I understand at all
I set myself up for the fall(Fade away)
Withdrawing deep into the hole
(Fade away)
This isolated little hell
Leaves me cold and fadedFade away fade away fade away
Fade away fade away fade awayI'm my one and only friend
I am my worst enemy
I find new methods to pretend
That this is not realityDon't be lonely
Now I'm your onlyJust stay far away from me
When I fadeaway from me (just stay far away from me)
Just stay far away from me (just stay far away from me)
When I fadeaway from me (just stay far away from me)
When I fadeaway from me (just stay far away from me)
When I fadeaway from me (just stay far away from me)
When I fadeaway from me (just stay far away from me)
When I fadeaway from meWhen I'm not all I used to be
Yeah when I fadeaway from me
When I fadeaway from meDecline
More whine
Deadline
All mine
