

# I Believe

## Savatage

Beyond the skies, rising so high  
Set a course for the unknown  
But I believe there's life out there  
Somehow we'll find it Countdown begins, our ship soon will launch  
On it's perilous flight to the stars  
A civilized race, on some distant world  
We'll find you wherever they are I believe we'll find a new world  
Can't you see, we cannot return? Systems are gone as we leave behind  
A planet that's doomed to end  
Nuclear wars, the polluted seas  
Doomsday begins it's descent Where do we go?  
What'll we find?  
Is there life other than mine?  
I believe For 2000 years, we sought and we searched  
The galaxy's black holes in space  
Then on the day of 3013 we came upon a race  
I believe we can survive on this sphere  
Plotting a course to enter a stratosphere We're finally here, can we survive?  
A cryosphere, I hope there's life  
I believe We land our ship on a green barren plain  
Once outside from a box the voice came  
Welcome to Earth, may we ask who you are?  
Our race is called Man, the planet is doomed  
Doomed, doomed, doomed, doomed Planet is doomed  
Hands off the moon  
Forget the tune Hands at the moon  
Strike at the two  
Forget the blue
