

# Smoke Filled Room (Elephante Remix)

[Mako](#)

Isn't it a little late  
Shouldn't you fly away  
Little dove with cigarettes  
Show 'em that you can hold your breath I heard about a girl Buried her dolls and lost her curls Painted on  
lipstick red  
Grew herself up and then she'd  
Walk into a smoke filled room  
Oh no one could keep their eyes off you  
Have a little drink or two  
Oh how could you be that girl I knew  
Walk into a smoke filled room  
Little black dress and mama's shoes  
Isn't it a bit too soon  
Oh how could you be that girl I knew  
Oh how could you be that girl I knew  
Walk into a smoke filled room  
Oh I believe love will follow you  
Isn't it a bit too soon  
Oh how could you be that girl I knew Take a step around the room  
And every head keeps turning too  
Little dove, you fight 'em back  
Show em you're so much more than that  
I heard about a girl Buried her dolls and lost her curls Painted on lipstick red  
Grew herself up and then she'd  
Walk into a smoke filled room  
Oh no one could keep their eyes off you  
Have a little drink or two  
Oh how could you be that girl I knew  
Walk into a smoke filled room  
Little black dress and mama's shoes  
Isn't it a bit too soon  
Oh how could you be that girl I knew  
Oh how could you be that girl I knew  
Walk into a smoke filled room  
Oh I believe love will follow you  
Isn't it a bit too soon  
Oh how could you be that girl I knew
