

Yesterday

NLT

Never meant to cause you no pain
When I said I never wanted to see you again, oh
Took advantage of all that I gave, yeah
So what's the news, tryin' to get me to stay Tried everything to make this thing work
'Cause I found that you were God's gift to the earth, no
You couldn't have told me we wouldn't be, yeah
Together forever Tell me why now that I'm leavin' you're missin' me?
Tell me why when I loved you, you hated me?
Tell me why now that I moved on you're wanting me?
But baby it's too late now, I don't wanna go back to yesterday I was everything you wanted in a man, baby
Everyday I try to do the best that I can, oh
But you never thought that I'd be the one, yeah
Oh, baby, baby Please tell me why now that I'm leavin' you're missin' me
You're missin' me?
Tell me why when I loved you, you hated me?
Tell me why now that I moved on you're wanting me, yeah, yeah?
Baby but it's too late now, I don't wanna go back to yesterday No, I don't want you back, no, I don't feel your
pain
You gotta understand that I'm finally a man
Please don't say anymore, I'm already out the door
Ain't nothing you can do 'cause baby I'm over you It's the end, oh, baby, it's getting old
Can't take the stress on me so baby I've gotta leave
This is my final good bye, baby tell me why? Oh, baby
Well, baby it's too late now, I don't wanna go back to yesterday Tell me why now that I'm leavin' you're
missin' me?
Tell me why when I loved you, you hated me?
Tell me why now that I moved on you're wanting me?
But baby it's and it's too late now, now
And no I don't wanna go back to yesterday
