Not About Us

Genesis

Little piece of something
Falling gently down, down, down
No one understands you
Like I do
I'd rather be beside you
Everything we know so well
Tell me what you feel now
Show me, what you think of it
It's not about us anymore
It's all about the reasons
That we think we're fighting for
It's not about hate
It's not about pain we always feel
I know we have our problems
But we're not the only ones
It's not about you, it's not about me
It's not about anger
It's more about the loneliness we feel
How can I begin to
Ask for some forgiveness?
For all that we have taken
There's nothing left now
Just a little piece of something

Falling gently down, down, down
No one understands you no, no like I do
There's nothing left now
It's not about us anymore
It's all about the reasons
That we think we're fighting for
It's not about hate
It's not about pain we always feel
I know we have our problems
But we're not the only ones
It's not about you, it's not about me
It's not about anger
It's more about the loneliness we feel
It's not about us
It's not about hate

It's more about the loneliness we feel
Can you feel it?
It's not about anger
It's not about wanting
I know we have our problems
But we're not the only ones
We're not the only ones
It's not about you, it's not about me
