

Pray

Nas

Overwhelmed and uninspired
From this communication breakdown
I'm in an ocean trying to start a fire
I'm burning out
I know what I've got to do
Take my time and talk to you
On my knees, flying through the blue sky
Miles away, I see clearly every single time I
Close my eyes and pray, pray
I need a constant conversation
A heart to heart, long distance call
So when I start to feel the separation I will fall
On my knees, flying through the blue sky
Miles away, I see clearly every single time I
Close my eyes and pray, pray
All my worries disappear when I'm standing here
On my knees, flying through the blue sky
I'm here to stay
On my knees, flying through the blue sky
Miles away, I see clearly every single time I
Close my eyes and pray, pray, pray, pray
Pray
(Close my eyes and pray)
Pray
(On my knees)
Pray
(I'm flying through the blue sky)
Pray
I need a constant conversation
A heart to heart long distance call
