Nobody Dances Anymore

Brandtson

You wanna play it safe,
Don't wanna step out.
You gotta pretend so no one finds out.
You gotta break free,
You gotta break out
So everyone knows what you're all about.Don't be afraid to be the one to start it up,
It's a party, once you turn it on it's hard to turn it off.
Listen to the music,
Turn it up, let it go.
Take it in until you feel it take control.Nobody dances anymore,
Nobody takes chances anymore.Carbon copy cutouts
Unable to move
