

Darken Her Horse

[Austra](#)

Ride her darken horse
her tempers lie untold
it's always the same

A customary trend
the course is laid to play
I noticed it's there

I noticed it's there, I noticed Shoot into the darkness with your hands Ride her darken horse

her tempers lie untold
its all insane
a monster for a friend
a liar to depend

I noticed it's there Hold her by the reins
the moon isn't far,
hold her by the reins,
it's worth it to stay.

nothing stable. nothing patient here. ride her darken horse
the pathway to the end
she's all alone
her trust was never there
it's you she needs here
I noticed it's there.
