

Love Like Heaven

Sarah Buxton

Mama was right when she said I was somethin'
I never could quite keep my feet on the ground
So much to say, never holdin' back nothin'
My heart on my sleeve with my head in the clouds I want true love
Always have, always will
And I won't give up
Till I feel how it feels I've felt the butterflies
And had the mad crush
I've felt the earth move
With just a single touch The passion and a kiss but what I'm wantin' is
Sweet forgiveness eternally in this
Sacred gift were given a love like heaven
I'm gonna find it Some people tell me I'm foolish and crazy
It's somethin' so perfect, it just can't exist
They say I've been watchin' too many movies
These great expectations really put me at risk Yeah, but I know better
Always have, always will
Call me a dreamer
But I just feel what I feel I've felt the butterflies
And had the mad crush
I've felt the earth move
With just a single touch The passion and a kiss but what I'm wantin' is
Sweet forgiveness eternally in this
Sacred gift were given a love like heaven So I keep my cool, I keep my faith
I know that there's a better place
Where there's no pain and hearts don't break
And forever means forever, baby Oh, oh
Yeah, yeah I've felt the butterflies
And had the mad crush
I've felt the earth move
With just a single touch The passion and a kiss but what I'm wantin' is
Sweet forgiveness eternally in this
Sacred gift were given so surrender Sweet and tender, angels wings uplifting
A love like heaven, I'm gonna find it
A love like heaven
