Keep The Candle Burning

Point Of Grace

You think you're alone there in your silent storm
But I've seen the tears you've cried
Falling down and trying to drown
The flame of hope insideLet me tell you now, tell you nowWhen you're walking in the dead of night
And your soul is churning
When your hope seems out of sight
Keep the candle burningAll it takes is one steady heart
In a world that's turning
Shine a light and pierce the dark
Keep the candle burning, keep the candle burningWhen you're down and you're discouraged
When the darkness clouds your view
You've got to gather up your courage
You know the Lord is gonna see you throughWell let me tell you now, tell you nowWhen you're walking in the dead of night
And your soul is churning
When your hope seems out of sight
Keep the candle burningAll it takes is one steady heart
In a world that's turning
Shine a light and pierce the dark
Keep the candle burning, keep the candle burningOne ray of light always breaks through
Follow wherever He takes you
Wherever He takes youWhen you're walking in the dead of night
And your soul is churning
When your hope seems out of sight
Keep the candle burningAll it takes is one steady heart
In a world that's turning
Shine a light and pierce the dark
Keep the candle burningWhen you're walking in the dead of night
And your soul is churning
Hope seems out of sight
Keep the candle burningJust one steady heart
In a world that's turning
Shine a light and pierce the dark
Keep the candle burning, keep the candle burningKeep the candle burning
Keep the candle burning
Keep the candle burning
Keep the candle burning
Keep the candle, keep the candle
Keep the candle burning
