Our Town

The Adjusters

You will like the folks, you meet, in our town
The folks, you meet on any street, in our town
Pick out any cottage, white or brown
They're all so appealing with that lived in feelin'
You will like the shady lanes, in our town
The music of the passing trains, in our town
You will lose your heart, I promise you
In this, our two-by-four town, welcome, on the door town
If you'll make it, your town too
You will lose your heart, I promise you
In this, our two-by-four town, welcome, on the door town
If you'll make it, your town too
