Conspiracy Theory

Cyanide Pills

Conspiracy theory
Better keep it down
'Cause the walls are thin
And the word is out now
Lock your lip
Don't you make sound
'Cause the walls are thin
And the word is out now
Better that you didn't know
Better that they didn't show, that's right
Probably need to live in fear
Knowing that the threats are real this time
Conspiracy theory
Gonna make you shake
Don't hit the brake
No time to waste now
Like it or leave it
Better hit the road
'Cause the one we know
Is gonna fade away now
Better that you didn't know
Better that they didn't show, that's right
Probably need to live in fear
Knowing that the threats are real this time
Conspiracy theory

Better keep it down
'Cause the walls are thin
And the word is out now
Lock your lips
Don't you make a sound
'Cause the walls are thin
And the word is out now
Better that you didn't know
Better that they didn't show
Probably need to live in fear
Knowing that the threats are real this time
