## Cyanide Pills

Conspiracy theory  
Better keep it down  
'Cause the walls are thin  
And the word is out now  
Lock your lip  
Don't you make sound  
'Cause the walls are thin  
And the word is out now  
Better that you didn't know  
Better that they didn't show, that's right  
Probably need to live in fear  
Knowing that the threats are real this time

Conspiracy theory  
Gonna make you shake  
Don't hit the brake  
No time to waste now  
Like it or leave it  
Better hit the road  
'Cause the one we know  
Is gonna fade away now  
Better that you didn't know  
Better that they didn't show, that's right  
Probably need to live in fear  
Knowing that the threats are real this time
