Just Like Everyone Else

Field Music

It's nighttime,
Despite the noise at the window
Do you feel safe in here?
What can I give you?
What protection?
Do you feel safe with me?I'm just like everyone else
I'm just like
As bad as everyone else
I can see the high groundIn the day time,
Or in a crowd
You could have lost yourself
And if I'm not there,
Then my limited help
Is really no help at all
I'm just like everyone else
I'm just like
As weak as everyone else
The distance removes me
