Give Love

MC YOGI

(This is the Pilgrimage version of give love, there are others)

Hush little darling, don?t you cry
Every little thing?s gonna be alright
Don?t worry, don?t be afraid
Every little thing?s gonna be ok
Open up your heart, unlock the cage
Turn the key and break the chains
Love will always find a way
If you want love you gotta give love away.....

Give love, give love away
Give love, give love away
Give love, give love away now
Give love, give love away
Give love, give love away
Give love, give love away now
Give love, give love away

Your love, is the best medicine
I shine like Edison whenever I let it in
Love is a power that opens every flower
Transformed this coward into a champion
When we are loved, love is there to remind us
Providing signs and offering us guidance
Love is infinite, unlimited, and timeless
Look inside your heart, that?s where you will find it

Give Love refrain

Love is the answer love is the key
Love is the glue between you and me
Open up your heart and you will see
Love is the thing that?ll set you free
Because love is the remedy,love is the cure
Love?s the only thing that will stop the war
It?s what the whole world is looking for
So what in the world are you waiting for?

refrain

Give love to your brother
Love to your father
Love to your mother
Your sons and your daughters
Love to your sisters and all your friends
Shine your love in all directions

Giving and receiving is just like breathing
When you live to give love
It gives life meaning
It?s feeling and kindness
The love?s inside us
Nobody can sell this or try to buy this
?Cause love is righteous, and it might just
save the whole world from its global crisis
so throw your hands up if you know what the time is
open up your heart and let it shine the brightest

love is all we need to get by
love is all we need to get by
love is all we need to get by
open up your wings and let your heart fly
love is all we need to get by
love is all we need to get by
love is all we need to get high
open up your wings and let your heart fly

la la la la ...

always remember, never forget
what we give is what we get

give love

give love

give love
