RZA

Word up, straight up  
Spread my knowledge through your projects  
Straight up, word upThe chief noble oble same total controller of the global  
Over law the thousand MC's grab proposal  
Jakes that mould you taste will hold you hostage  
Peace will fold you like a wallet flies get swatted  
Once they spotted infra-red dotted head red targetsYo, we smoke blunts, throw weight, bust shots  
Attend wakes baby make, pay rent stay bent  
Drink Red Label duck from Jakes we flagrant  
Keep the gear pressedI'm paranoid of loizoid  
We fight like Guiver against the hyperzoid noids high achiever  
Mind computes like a thief  
Thoughts connect like the quarterback to the wide receiverStay blunted drinking cokey nine hundred  
Never fronting on my niggas on the battle zone  
Thoughts flip before they change your whips on the  
Good ship Jesus before Kimet was called EgyptBefore the bloods and crypts tomahawks and pimps  
Eighteen pumas spaced we still had balds and braids  
Amplify the sound of the earth rotation  
Who could pin-point the exact location in spaceIt's to see hear and feel the earth rotation  
That's why knowledge is the basic foundation of  
All days and creation, like man is the foundation of  
His family and the sun's the foundation of the solar systemWisdom is the manifestation when words and actions  
Are put Into activation, escape this captivation niggas busting  
Wasting shots like masturbation, transforming like gobots  
They created a race of robots our new rulers are computersAbbott's been known now come through to us  
Heads drifting in space like asteroids  
Pass the roids, savages trading places like Dan Akyroid  
The truth is ignored, these devils must be destroyedYo, we smoke blunts, throw weight, bust shots  
Attend wakes baby make, pay rent stay bent  
Drink Red Label duck from Jakes we flagrant  
Keep the gear pressedSearch for the better things in life  
Beef wid wife make a nigga live a street life  
We smoke blunts, throw weight, pay rentYo, check it out, yo, one two, yo  
Soon to smooth litigating, camouflage educating  
Biretta Nines berating, only smoke rounds a day and  
Ain't nothing to overdo the shit, ya'll niggas best to come up quickWe gonna start and finish it 'cause I'm sure  
watch me murder it  
Undersiege fatigue get bat at major league  
Nine industry forms that be forced from catigues

We live righteous TC they go up do the same Fuck the fame we hear the bill better keep your eyes peeled  
Fuck around get killed it ain't safe no fucking more  
C-Ciphers at my door and I got more than one war  
I'm gonna stay on my toes and do the one to two timers We gon' make this year our year to beware peace to  
rhymers  
Our life is in a bond-a, swear we gotta find a  
Way out we took the crypt ride we all about  
On these streets trying to make ends meet, stay on my feet Gotta eat God you things is deep peep the sleep  
How you see camouflage these cats, we on that bullshit  
Last days thinkings of snakes and either pull it soft you know  
Like an afro other cats sit like Castro I murder that snitch ass Donnie Brasco, we dissatisfied  
Of your devils running running high, my mind and my physical be unified  
To the day we testify, we wanna be penalized  
From God Allah motherfuckers best recognize Yo, we smoke blunts, throw weight, bust shots  
Attend wakes baby make, pay rent stay bent  
Drink Red Label duck from Jakes we flagrant  
Keep the gear pressed A bag of dast mixed wid stress, search for the better things in life  
Beef wit' wife make a nigga wanna live a street life  
We smoke blunts, duck Jakes, pay rent, stay bent  
Attend wakes, baby make, search for better things in life  
Beef wit' wife, make a nigga wanna live a street life I'm paranoid of Loizoid  
We fight like Guiver against the hyperzoid noids high achiever  
Mind computes like a thief  
Thoughts connect like the quarterback to the wide receiver
