

None Of Them Are You

Brendan James

black blue yellow white, red striped, scared and bruised.
old young, week strong, over confident, confused.
he can run, she can jump, they can sing higher than you.
make you hurt, make you cry, make you forget the truth.

never gonna get it for yourself, if you keep your eyes on someone else.
nobody started from, the place that you started from, nobody hopes to go, were your hoping to go and, nobody
out there wants to laugh love?, you do.
'Cause none of them are you.
none of them are you.
