

Them Old Love Songs

Waylon Jennings

Down the dusty Dixie road my old Levi's draggin' tracks
Nobody cares about where I'm going they all know I'm coming back
Wish I had me a true fine woman let her rock me all night long
Baby we could get it together like people do in them old love songs
I can hear somebody laughin' funny how it
makes me sad
Lord I wish it was Sunday morning Saturday night sure looking bad
Wish I had me a true fine woman...I wish I had me a true fine woman...
Yeah baby we could get it together like people do in them old love songs

Songwriters

Fritts, Donnie / Seals, Troy
