

The night is still young

Villacoma

I'm young enough to see the passionate boy that I used to be
But I'm old enough to say I got a good look at the other side
I know we got to work real hard, maybe even for the rest of our lives

But right now I just want to take what I can

Get tonight

While the night is still young

I want to keep making love to you

While the night is still young

I'd like to settle down

Get married

And maybe have a child someday

I can see a time coming when I'm gonna throw my suitcase out

No more separations

Where you have to say goodnight to a telephone

Baby I've decided that ain't what this life is all about

Oh

While the night is still young

While the night is still young

I want to try to make the world brand new

While the night is still young

Rock and Roll music was the only thing I

Ever gave a damn about

There was something that was missing

But I never used to wonder why

Now I know you're the one I need

To make things right again

And I may lose the battle

But you're giving me the will to try

Oh

While the night is still young

Because the night is still young

I've got a lot of catching up I've got to do

While the night is still young

While the night is still young

I want to try to make the world brand new

While the night is still young
