Christmas Without You

Xscape

The snow is falling like I knew it would
Carolers are already singing
Last year is all that I can think about
Every time I hear sleigh bells ringing
But I know
That when summer came I pushed you away
I should have never let you go, no
Now all I'm really trying to say is
I want you to come home
I know that there won't be a Christmas without you
I miss you so much, you're all that I want
I know that there won't be a Christmas without you
I miss you, come home
I remember all the love we made
I miss your stocking on the fireplace
Underneath the mistletoe we stayed
T'was a very special holiday
But I know
That when summer came I pushed you away
I should have never let you go, no
Now all I'm really trying to say is
I want you to come home
I know that there won't be a Christmas without you

I miss you so much, you're all that I want
I know that there won't be a Christmas without you
I miss you, come home
There's a fire that's still burning in my heart tonight
There's no reason why we both should be alone
It's the night before Christmas
And I'm waiting here for you to come home, come home
I want you to come home
I know that there won't be a Christmas without you
I miss you so much, you're all that I want
I know that there won't be a Christmas without you
I miss you, come home
I want you to come home
I know that there won't be a Christmas without you
I miss you so much, you're all that I want

I know that there won't be a Christmas without you
I miss you, come home
I want you to come home
I know that there won't be a Christmas without you
I miss you so much, you're all that I want
I know that there won't be a Christmas without you
I miss you, come home
