

# Long Day

## Dalvin Degrate

I know you had a long day, baby  
Why don't you come over  
I've got somethin' for you Since you've had a long day  
Gonna make you feel better tonight  
So come around girl  
I'll be waiting for you Wanna make you feel good tonight  
Because you deserve it  
So come around girl  
I'll be waiting for you I want you to know that  
I appreciate the way you are  
You work so hard from day to day  
So in return I'll tell you now You're special girl  
You're beautiful  
Tonight's the night  
I'm gonna give you the world Since you've had a long day  
Gonna make you feel better tonight  
So come around girl  
I'll be waiting for you We can take a hot shower  
Or whatever my baby wants  
Let's have a glass of sweet champagne  
Before I lick it all off of you It'll be better  
Than the other night  
I promise you  
I'm ready to give you the world Since you've had a long day  
Gonna make you feel better tonight  
So come around girl  
I'll be waiting for you I'll run the bath water  
(I'll be waiting for you)  
Gonna rub you down  
(I'll be waiting for you) Gonna kiss you all over  
(I'll be waiting for you)  
I'll take good care of you  
(I'll be waiting for you) Yeah, woo  
You're special to me girl You're special girl  
You're beautiful  
Tonight's the night  
I'm gonna give you the world Since you've had a long day  
Gonna make you feel better tonight  
So come around girl

I'll be waiting for you
