Rush me in, let's begin

I'm kinda hot, you know my spot  
Girl diagnose me, you don't need no chart  
You don't need no notice from the doctor  
Your fingers my thermometer, I ain't even tryin' to be rude  
I need you to care for me when this world gets crazy  
So baby take me to your room  
I need mouth to mouth, you feel me  
You got a lot to check out, get busy  
Girl diagnose me but come a little close please  
Listen baby you can be my IV  
Baby please bring me back, it's an emergency  
Resuscitate me, come on baby

I need a transplant, take my heart again
