So Fine

Electric Light Orchestra

Two drifters on the morning sky
Two drifters sailing wide and high
When summer breezes blow across your mind
With you I will walk the lineI want it so fine
I want it so fine
I want it so finePeople walking hand in hand
Everybody's singing to the band
I want to be where the stars shine bright
And hear the sweet music on a summer nightI want it so fine
I want it so fine
I want it so fineSundowners, we'll go on and on
We'll find the land of the midnight sun
And when you look you'll see for miles around
You'll see the world is in your handI want it so fine
I want it so fine
I want it so fineOh baby, yes you know that's what I want
I want it so fine
I want it so fine
I want it so fine
